[Excavator Attachments](#)

[Other Products and Equipment](#)

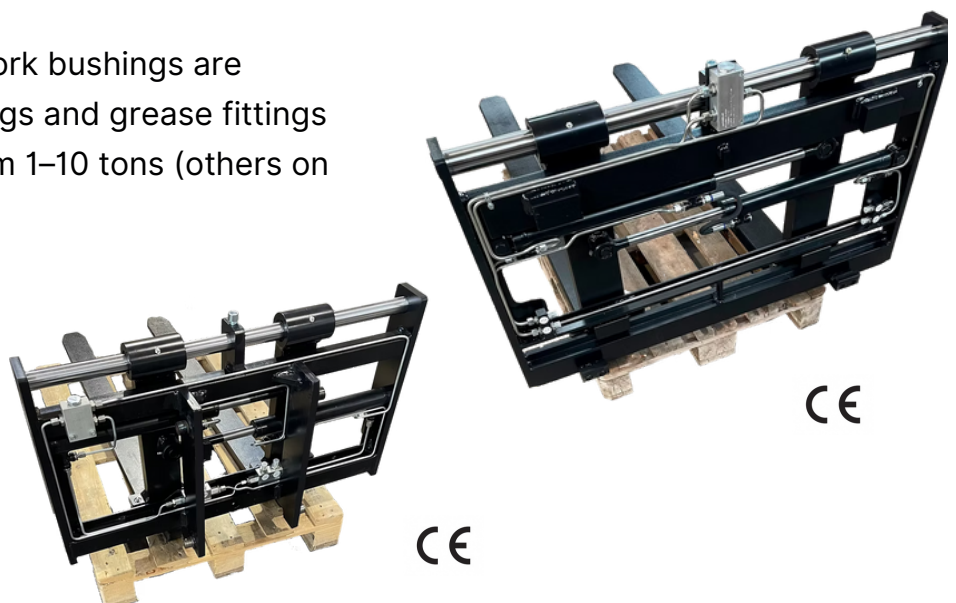

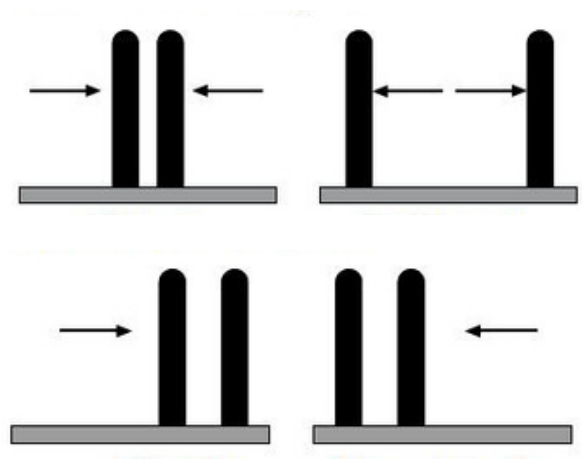

In addition to smooth material handling in industrial environments, it's essential to consider the operator's ergonomics. By eliminating heavy manual fork adjustments and making pallet handling easier, productivity improves, and operator fatigue is reduced.

Benefits

- **Fewer movements**
- **Faster load handling**
- **Saves both money and the forklift itself**

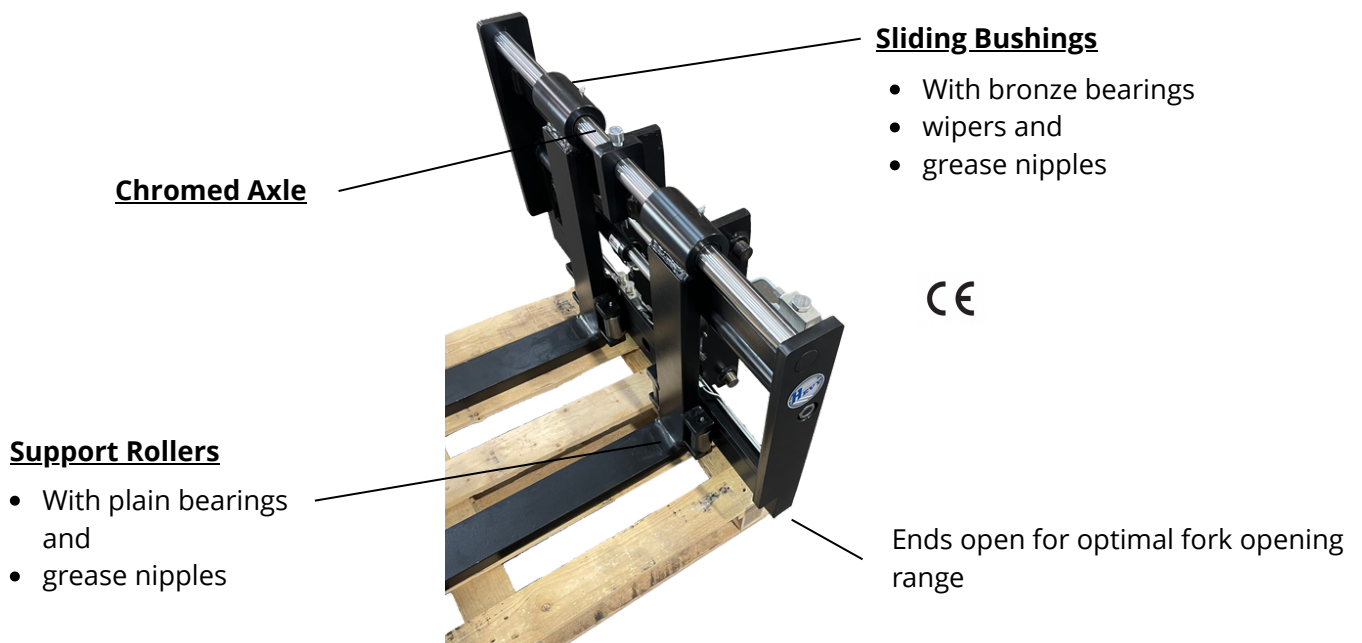

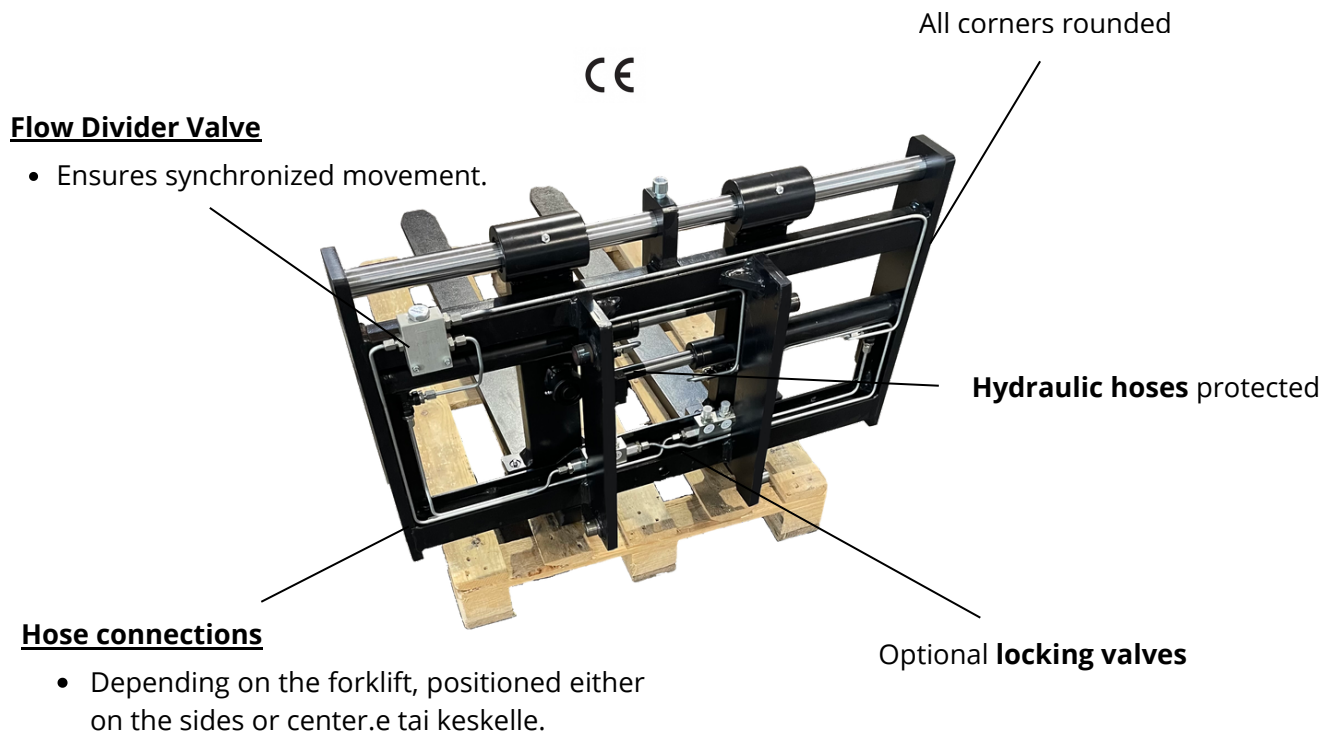

Product Features

- ISO 2328 standard hook mount
- Also available as integrated versions
- Excellent visibility through the device
- Small load shift
- Hydraulic hoses pre-installed
- Flow divider ensures synchronized fork movement
- Forks suspended on a round bar for smooth motion
- Support rollers and fork bushings are equipped with bearings and grease fittings
- Lifting capacities from 1–10 tons (others on request)
- CE certified

FORK POSITION WITH SIDESHIFTING

- Second cylinder positioned on top
- Improved visibility through the device, especially when loading or unloading trucks.

CE

Forkposition with sideshifting – Movement to centerline

PAGE 7

Product Features

- Specifically designed for terminal operations.
- Max load capacity: 2500 kg / 500 mm
- Lifting class: FEM 2 or integrated
- Standard widths: 1050 mm and 1100 mm
- Fork lengths by request
- Excellent visibility through the attachment
- Hydraulic hoses well protected

Watch the operational principle video [here](#).

Fork Position with sideshifting – Lifting Fork

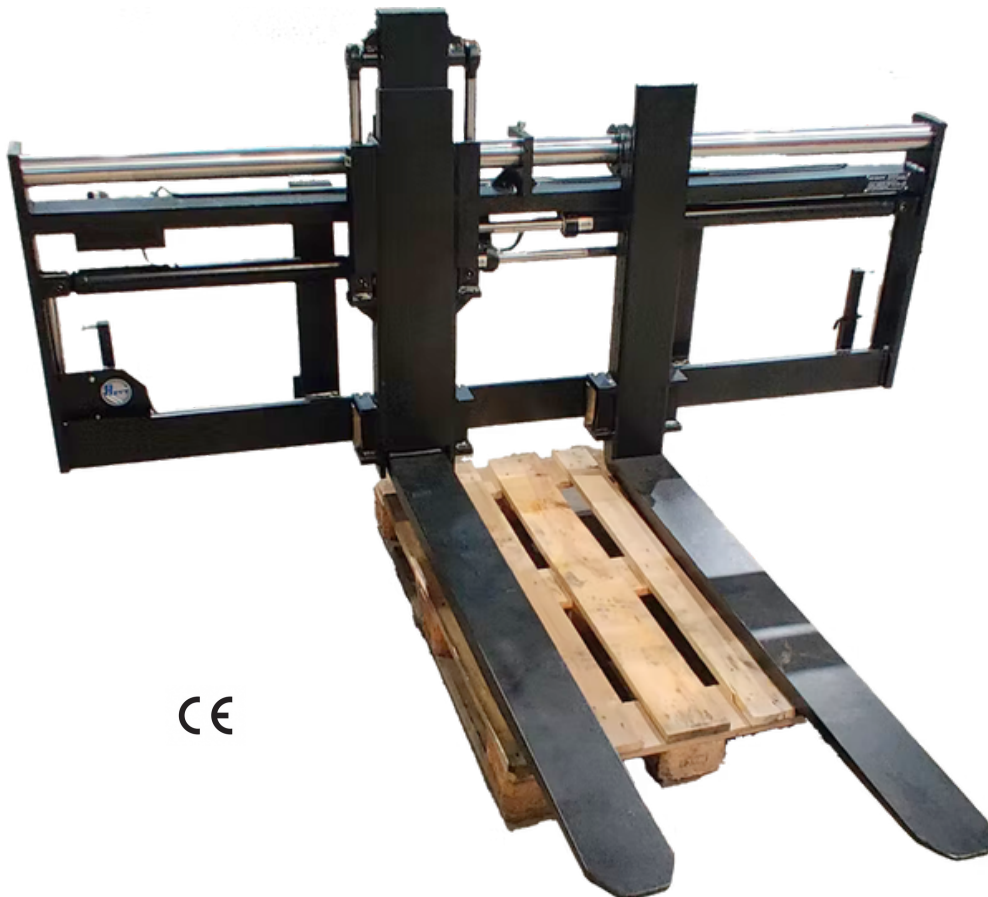

PAGE 8

Product Features

Three functions in one device:

- Fork positioning
- Sideshifting
- Hydraulic lifting of the one fork

Includes a load-lowering valve to ensure smooth and even fork movement in all situations.

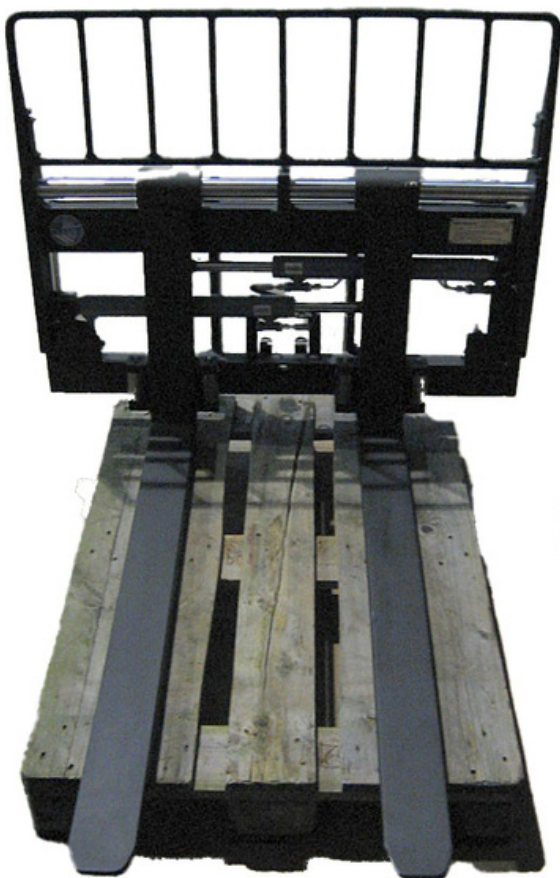

CE

Fork Position with sideshifting – Load backrest Quick couplings

PAGE 9

Product Features

- Manufactured to customer-specified dimensions
- Available with fixed or removable load backrest

**Quick Coupling for Hanging
Fork Positioner**

Fork Positioner for FEM Forks

PAGE 10

Product Features

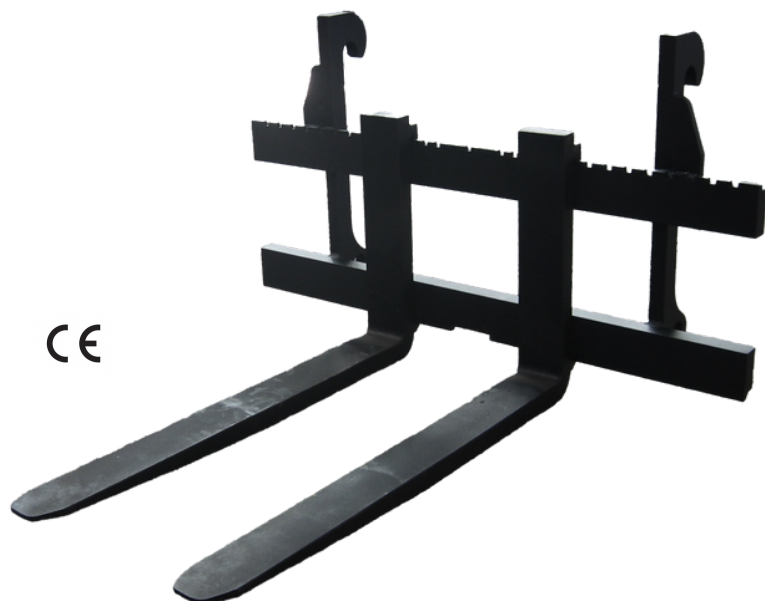

- Available for lifting classes 2, 3 and 4
- Equipped with adapter allowing use of forks FEM 2, 3 and 4
- Device widths according to customer requirements
- Max fork width:
 - Class 2 – 100 mm → 120 mm
 - Class 3 – 125 mm → 150 mm
 - Class 4 – 150 mm → 150 mm - 200 mm
- Adapters for other fork widths available upon request

Mechanical Lifting Forks **for Loaders**

Hydraulic Pallet Forks for Telehandlers

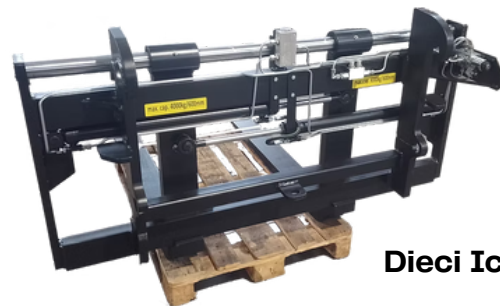

PAGE 14

Product Features

- Our forklift forks are manufactured according to ISO 2329 and ISO 2330 standards
- Quick coupling for front loaders such as **Bobcat, Caterpillar, Dieci, Haulotte, JCB, Magni, Manitou, Merlo, Paus, etc.**
- Other coupling options available upon request
- Available in both mechanical and hydraulic versions for different lifting classes.

Bobcat

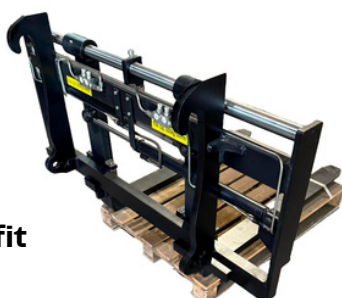

Dieci Icarus

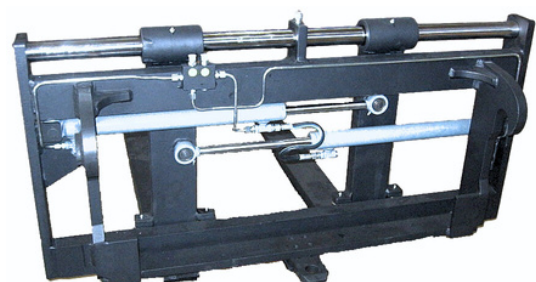

Magni

Manitou

JCB Q-fit

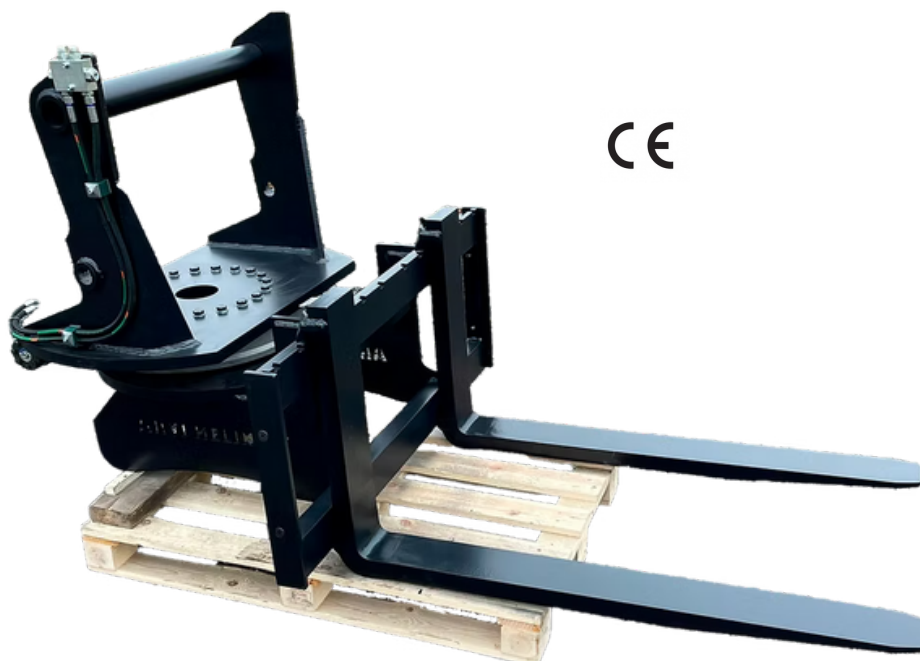

Merlo ZM 2

Rotating Pallet Forks for Telehandlers

PAGE 15

Product Features

- Rotates 360° around its vertical axis
- Lifting capacities: 2500 kg, 3500 kg, and 5000 kg
- Frame width: 1200 mm (others upon request)
- Mechanical fork adjustment (hydraulic on request)
- Excellent visibility of fork tips
- Quick coupling available for telehandlers (Manitou, Bobcat; others on request)

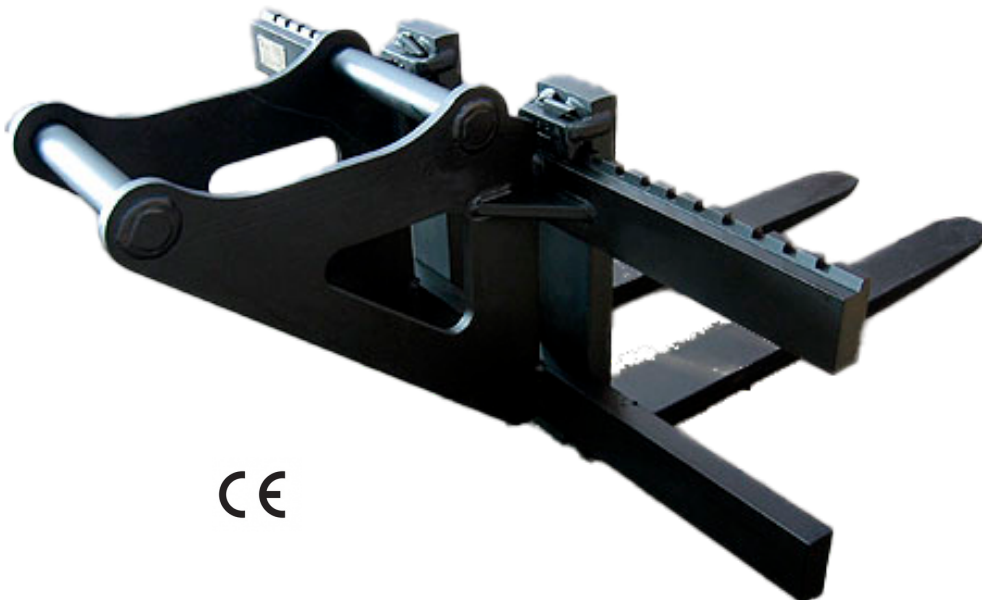

Excavator Forks

PAGE 16

Product Features

- Available with NTP 10, 20, 30, and 40 couplings
- Available with S 30, 32, 40, 45, 50, 60, 70, and 80 couplings
- Also for Länner and Gjerstad couplings
- Lifting class 1000–2500 kg: fork carriage width 1200 mm
- Lifting class over 3500 kg: fork carriage width 1500 mm
- Other widths available upon request
- Also available with hydraulic fork positioning

Forklift Forks and Extension Forks

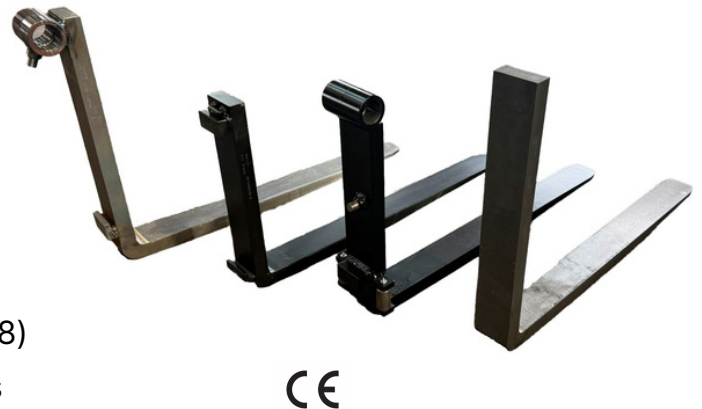

PAGE 17

FORKLIFT FORKS

Product Features

- Forks available:
 - As blanks
 - With FEM 2, 3, and 4 hooks (ISO 2328)
 - According to customer specifications
- Lifting classes for forklift forks:
 - 1–11 ton fork blanks available in stock (subject to prior sale)
 - 12–100 ton by request

All forks are manufactured and tested according to ISO 2328, 2329, and 2330 standards.

EXTENSION FORKS

Product Features

- Available in various models, e.g. open-bottom, stainless steel, reinforced edge, etc.

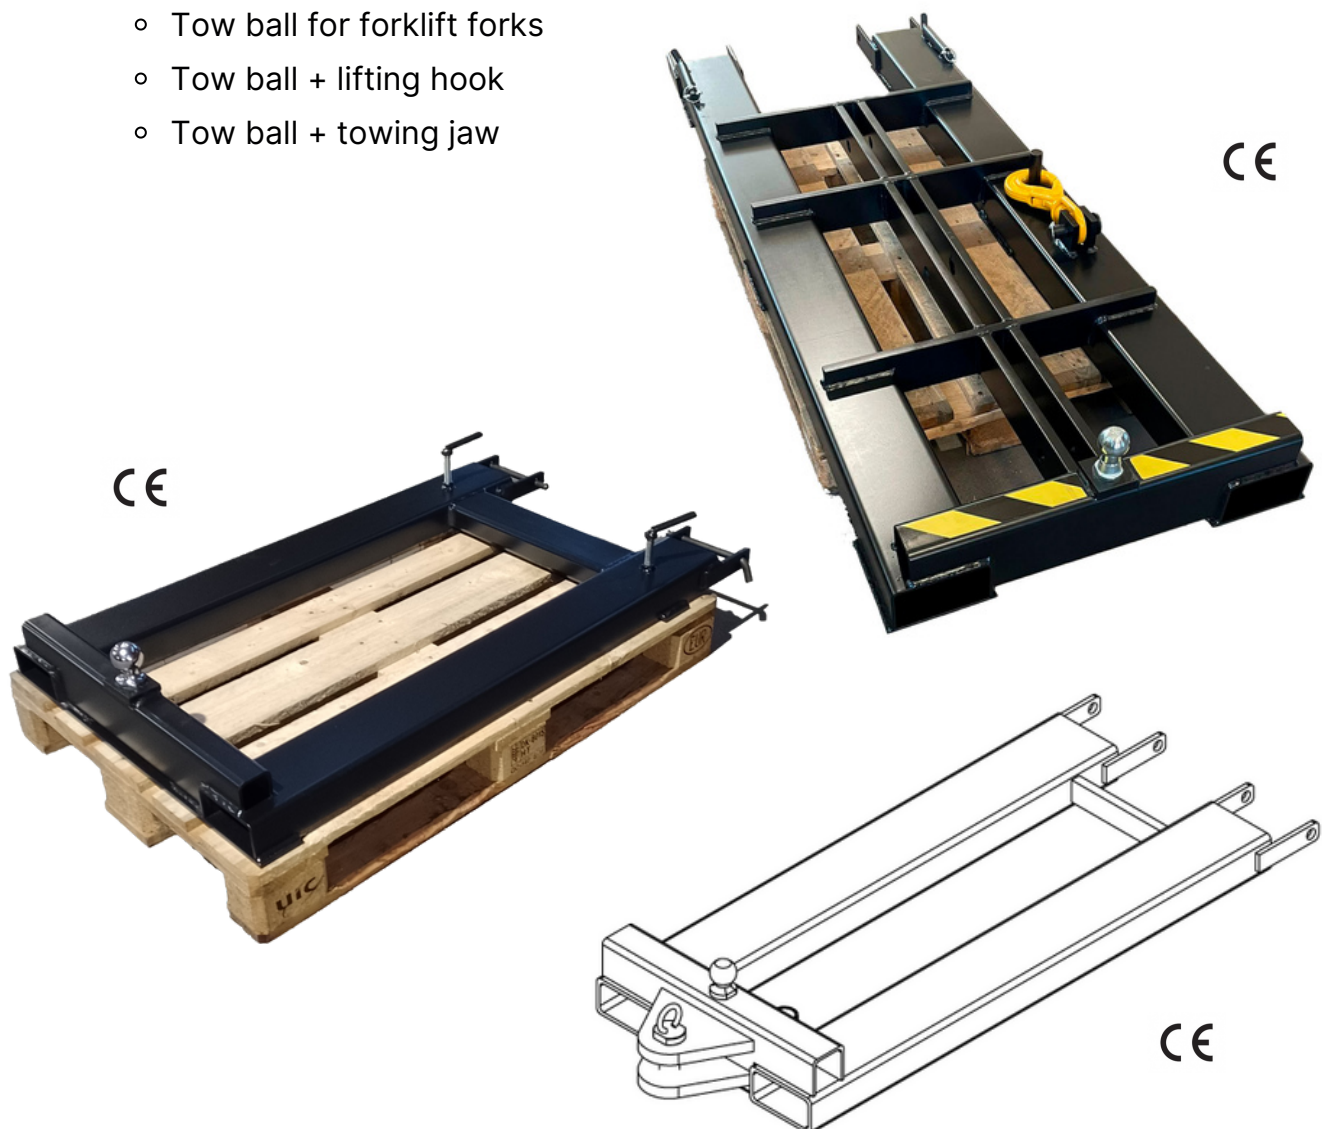

Tow Ball for Forklifts

PAGE 18

TOW BALL

Product Features

- Tow ball attachment for forklifts to move trailers
- Available for different fork sizes
- Tow Ball Options:
 - Tow ball for forklift forks
 - Tow ball + lifting hook
 - Tow ball + towing jaw

Crane Jibs, Big Bag Lifters and Lifting Racks for Forklift trucks

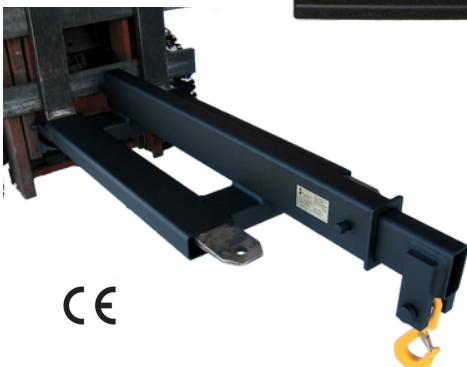

PAGE 19

Product Features

- With fixed or telescopic arm, also available with hydraulic arm adjustment
- Mounting on forklift forks or carriage (ISO 2328 / FEM)
- Includes safety hook with swivel and nameplate with load chart
- Telescopic arm extension mechanically secured for safety
- Optional tilting arm available (see images below)
- Other models made to customer lifting requirements
- More about Crane Jibs, Big Bag Lifters and Lifting Racks [here](#).

Crane Jibs, Big Bag Lifters and Coil Booms for Loaders and Telehandlers

PAGE 20

Product Features

- Mounting to front loader or forklift forks
- Fixed or telescopic arm
- Also available with hydraulic arm length adjustment and hydraulic side shift
- Includes safety hook with swivel and nameplate with load chart
- Telescopic arm extension mechanically secured for safety
- Mostly manufactured according to customer lifting needs
- More about Crane Jibs, Big bag lifters and Coil booms [here](#).

Crane Jibs for Excavators

PAGE 21

Product Features

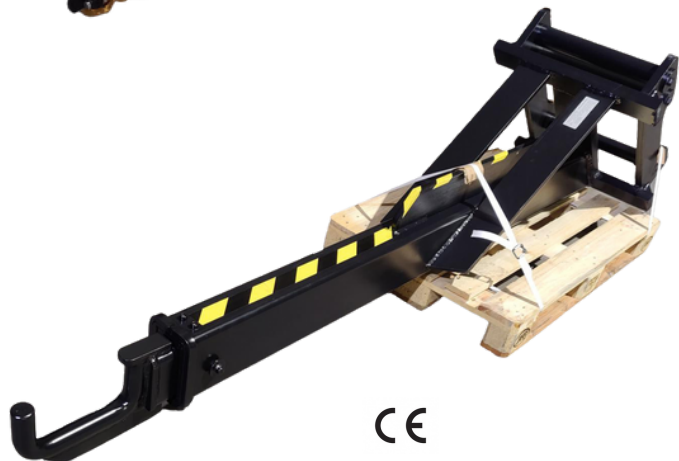

- Available with NTP and S-series quick couplers; others upon request
- Fixed or telescopic arm
- Also available with hydraulic arm adjustment
- Includes safety hook with swivel and nameplate with load chart
- Telescopic arm extension mechanically secured for safety
- Manufactured according to customer lifting requirements
- See all models [here](#).

CE

Personnel Carriers for Forklift trucks

PAGE 22

Product Features

- Complies with the personnel lifting regulation 403/2008
- Available for one or two persons
- Also available with electrical insulation
- Models and Weights:
 - For one person: Model HNK 80 – 95 kg
 - For two persons: Model HNK 120 – 105 kg

**Personnel Lifting Cage
for Stacker (right)**

- Read more from [here.](#)

Other products

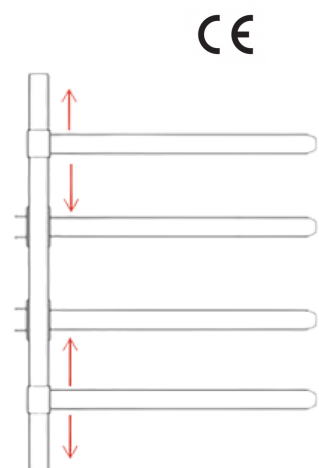

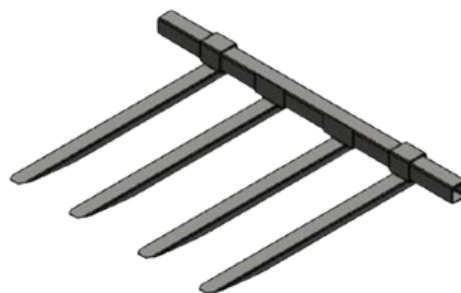

- Lifts designed for long materials / 4-fork carrier
- Waste Containers
- Adapters

PAGE 23

FORK CARRIAGE FOR LONG MATERIALS

Product Features

- With fixed or adjustable forks
- Designed according to the customer's needs.

Other products

- Lifts designed for long materials / 4-fork carrier
- Waste Containers
- Adapters

PAGE 24

WASTE CONTAINER

Product Features

- Designed for transporting various types of solid materials in both industrial and agricultural use
- Safer to empty than traditional tip-over bins due to opening bottom and low center of gravity movement
- Size table available online
- Patented under number 122101
- Read more from [here.](#)

CE

CE

Other products

- Lifts designed for long materials / 4-fork carrier
- Waste Containers
- Adapters

PAGE 25

ADAPTERS

Product Features

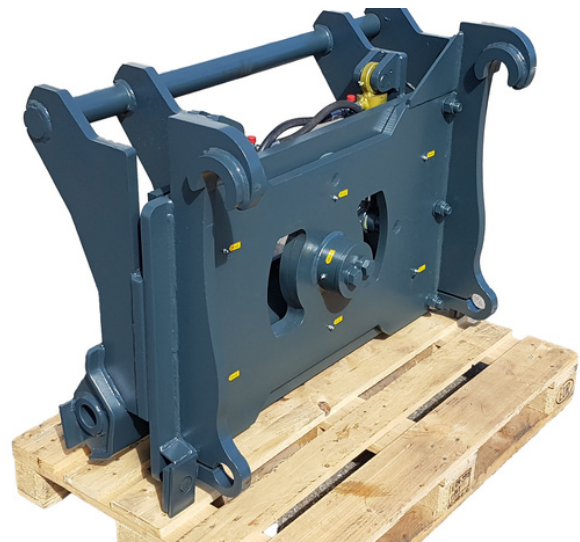

- Available for numerous machine-tool combinations
- Also with hydraulic pin locking.

HYDRAULICALLY TILTING ADAPTER

- Tilting 15 or 40 degrees.
